50 countries.

Sep 2008 ... Maktub. It was written.

15 years later. It is Rewritten...

Celebrating 15 years of Maktub - unleashed into the consciousness of a nation poised to take flight, it quickly became one of the most awarded and celebrated Indian indie Rock Albums of all times. A musical journey that inspired a generation and truly turned into the steppingstone for Crossover Indie Rock.

And what better to celebrate it than with a tour through Mindstreet, for those of us who travel the fields of sound. Catch us as we flaunt the paint and surrender to the hypnotic colours of sound, because the time for a new journey has just begun.

Taka Takita
Taka Takita
Taka Taka Takita Ta!
